Dear respective Honorable Congressman H. Morgan Griffith, Honorable Senator Tim Kaine, Honorable Senator Mark Warner, and CC: to Honorable U.S. Congressman Mark Walker,

I am requesting “Help with a Federal Agency” in asking or enforcing the FBI Agency boss's “Oath of Office” requiring that “*I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God.*” (5 U.S.C. § 3331), and Fourteenth Amendment of the United States Constitution that “*No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. . . nor deny to any person within its jurisdiction the equal protection of the laws.*” If a FBI boss at a particular regional office is protecting or refusing to investigate an individual who has committed one or more federal crimes, then that FBI office needs to be inquired by Congress or there needs to be an intervention, otherwise U.S. President Donald John Trump was right that the FBI is corrupt and does nothing to fight real criminals if a particular criminal behavior is done by a Federal Government employee which invites anarchy onto itself and promotes disrespect for the law as well as its enforcers. That is why there are so many anti-police rap songs due to the lawlessness of police.

I have also apparently been discriminated against by the FBI office in Greensboro over the matter of the perjury of U.S. Probation Officer Kristy L. Burton which I am a victim of. As a victim of a federal crime that I have evidence of, that three other credible witnesses have evidence of, I deserve being treated better by the United States FBI and the U.S. Attorney Office. Perjury is a technical crime and the PERJURY was done against me and my family, to hurt me, to almost put me 2 years in prison when she should have faced prison time. I am fighting right now to prove my actual innocence which was train wrecked because of the perjury by the U.S. Probation

Officer Kristy L. Burton of Danville. She should be paying my restitution for me not filing my 2255 Motion timely as it is her fault why it wasn't filed timely. Her perjury, which should have been grounds for case dismissal, led me to being wrongfully punished. She should sitting in federal prison right now. The FBI have let me down and have worsened my feeling of suicidal thoughts because she has made it maybe impossible for me to prove my actual innocence now due to the Anti-Terrorism and Effective Death Penalty Act placing a 1 year statute of limitations on filing a 2255 motion, and the malicious fraudulent motion by the Asst. U.S. Attorney Anand P. Ramaswamy for pre-filing injunction. None of that would have happened had Kristy L. Burton not committed perjury against me and I would have been able to timely file such motion. She has caused me financial damages, damages to my reputation, damages to me proving my innocence, and has caused other harm to me and my family by her perjury. I am a victim of her criminal act or acts and she needs to be investigated by the FBI. As a victim of crime, under the Crime Victims Act, I deserve to not be discriminated against due to my mental handicap/disability of Autism and OCD, and I deserve better treatment by the FBI in me filing my criminal complaint. I am having to mail WikiLeaks, to mail American Free Press, and other places because I felt like the FBI cannot be trusted anymore because of how they have treated me, a victim of federal crime.

I am requesting help with the Federal Agency of the U.S. Federal Bureau of Investigation (FBI) office located at "1801 Stanley Road, Suite 302, Greensboro, NC." The reason why is that the boss of the Greensboro, NC FBI Office has acted inappropriately by not following his Oath of Office and not enforcing the Federal Laws of the United States of America, therefore has acted in HIGH TREASON and has given aid and comfort to a United States Probation Officer ("USPO") Kristy L. Burton that has knowingly and openly committed one (*Perjury under Title 18 U.S. Code § 1621*) or more federal crimes (*Deprivation of Brian David Hill's Constitutional rights, civil rights, and privileges under the color of law under Title 18 U.S. Code § 242*) in Winston-Salem, North Carolina, Federal Courthouse on June 30, 2018, and has refused and failed to properly investigate, and prosecute such federal crimes. This is NOT a case for legal assistance but is asking Congress to hold the FBI to do their job, to execute their duties faithfully of their respective office for the federal crime or crimes committed by United States Probation Officer Kristy L. Burton. She has discriminated against me and so has the FBI. They both have injured me by discriminating against my Autism and misunderstanding my verbal communications.

When Congress had originally created the FBI and was born in 1908, the FBI Agents are supposed to investigate and prosecute anybody who has committed a federal crime inside the United States. Even dirty or crooked police have been arrested and prosecuted for committing felony-level crimes in the past in our court system history. When an FBI Boss of a regional FBI office improperly dismisses a complaint that the Duty Agent doesn't believe is meritless, then a felony-level criminal that has committed felony behavior has been illegally protected by that FBI boss in Greensboro, has committed the offense of HIGH TREASON by "dereliction of duty" by refusing to faithfully discharge his duties of office. I have had to mail copies of the court documents concerning such felony behavior of USPO Burton to WikiLeaks, Matt Drudge of Drudge Report, Breitbart, World Net Daily, Associated Press, and American Free Press. I will continue mailing to each of all members of the media every week across the country, and will not stop mailing the media until the FBI does their damn job and prosecute USPO Burton for Perjury and Deprivation of my Constitutional rights, privileges, and civil rights under the color of law.

I have attached to this letter the following evidence/information and proper forms for Congress:

- 1. PRIVACY RELEASE AUTHORIZATION form for U.S. Senator Tim Kaine (1-Page)**
- 2. PRIVACY RELEASE AUTHORIZATION form for U.S. Senator Mark Warner (2-Pages)**
- 3. PRIVACY RELEASE AUTHORIZATION form for U.S. Representative H. Morgan Griffith (2-Pages)**
- 4. PRIVACY RELEASE AUTHORIZATION (CC) to U.S. Rep. Mark Walker (3-Pages)**
- 5. Declaration of phone conversation with Jerry at the Greensboro FBI, NC (1-Page)**
- 6. Declaration of Records and exchanges between Brian David Hill and U.S. FBI Duty Agent Jerry at the Greensboro, NC Office (4-Pages)**

FACTS AND ISSUES OF REQUESTING HELP WITH FEDERAL AGENCY

I had filed a complaint with the FBI office in Greensboro, NC verbally via voicemail message to (336) 855-7770. My complaint is in regards to United States Probation Officer (“USPO”) Kristy L. Burton for perjury and also stated in my voicemail complaint that Assistant United States Attorney (“AUSA”) Anand Prakash Ramaswamy (Middle District of North Carolina) had knowingly allowed his key witness USPO Burton to commit perjury so I had brought up that he was involved in her perjury which I believe to the best of my knowledge was subornation of perjury. That I had to file such complaint because AUSA Ramaswamy had filed a motion for pre-filing injunction and mass-document-sealing-request over my 2255 Habeas corpus petition on the ground of actual innocence and other grounds. I also had tried to explain to the FBI, in the best way that I could despite my Autism, that the Court may try to massively seal all of my public court filings, so I had needed the FBI to investigate the perjury of Kristy Burton to charge her since AUSA Ramaswamy is allowing her to make multiple false statements and wants it completely sealed from public court record without citing what specific records need to be sealed to comply with the redaction requirements. It is virtually a cover up or censorship gag order of blatant criminal misconduct in my opinion. I believe that they wanted to cover up their crimes and misconduct. This criminal misconduct has led me to having increasing suicidal thoughts and making such suicidal statements on court record. Rather than try to resolve this, they are threatening or desiring more punishment and sanctions against me knowing that I am a victim of crime and malicious prosecution by corrupt actors inside the United States Department of Justice. I have had to dial hundreds to thousands of block numbers for the White House, had attempted to leave voicemails at random WH office employees begging the President for a pardon because the U.S. Department of Justice is so corrupt, I don't trust their Pardon Attorney because all the Justice Department does is threaten me with sanctions or want me imprisoned and further punished because I am fighting to prove my actual innocence. I fear for my safety because of the U.S. Department of Justice corruption with no recourse except to deal with their criminal behavior during my FOIA lawsuit in 2017 and my 2255 case. They are victimizing me and my family. That is why I mailed WikiLeaks. I fear they are trying to hurt me and my family. The corrupt U.S. Department of Justice that has discriminated

against my Autism and OCD. That is why I had gone to the FBI office in Greensboro in regards to Kristy L. Burton. I was hoping that somebody would do something about the criminal behavior so that they don't push me repeatedly towards suicide by repeatedly trying to bully me with LEGAL TERRORISM aka LawFare (Legal WarFare) and allowing the perjury, subornation of perjury, discriminating against me and my family over my Autism, and engaging in deprivation of my constitutional and legal rights under the color of law. That is also another felony crime by depriving me of my rights.

Here are the FACTS regarding the U.S. FBI:

Fact #1: I had mailed condensed evidence of public court record excerpts to the Duty Agent Jerry (*direct phone number (336) 855-2671*) with the certified mail tracking number 7017-2680-0000-5750-7135 on April 25, 2018 from the U.S. Post Office.

Fact #2: On May 2, 2018, FBI Duty Agent Jerry told me via voicemail that "*we're gonna have to have you come down here and give a statement*". On May 3, 2018, he left another voicemail canceling the request for me to come down and make a statement.

Fact #3: On May 17, 2018, FBI Duty Agent Jerry told me that the case will not continue by telling me that his boss had thought my complaint and/or evidence was meritless. Thus from what I understand, the investigation will likely not continue.

I would like to request that my representatives intervene in making sure that the FBI follows their duties, follows the law, and investigates my complaint as I am a victim of crime and have been pushed towards suicide by the criminal behavior of U.S. Probation officer Kristy L. Burton as was stated in my Declaration in my 2255 case, and by the criminal actions of Assistant U.S. Attorney Anand Prakash Ramaswamy, when he shouldn't even have been involved since the U.S. Attorney General is by-law supposed to appoint Special Counsel like in the case of the Russian-Collusion case of U.S. President Donald John Trump. I have also requested via FOIA that I receive any and all documentation including any phone conversation recordings or even notes between myself and the U.S. FBI in Greensboro in regards to my complaint that was thrown out of the FBI due to the boss of Duty Agent Jerry with the direct phone number of (336) 855-2671, had worked at the FBI at the time of such complaint, and still works at that same FBI office. Since the investigation has been closed without giving me an explanation as to why the boss considered it meritless but not the Duty Agent who had wanted me to come down and give a statement, no statements were ever obtained from me and none of the witnesses since Jerry's request to have me come down to the Greensboro FBI office was canceled, even though me and the three other witnesses all knew that Kristy L. Burton had committed perjury by making multiple false statements at the federal Courthouse in Winston-Salem, NC, on June 30, 2015, in front of the Hon. Judge Thomas D. Schroeder.

It is dereliction of duty what the FBI boss has done in Greensboro, North Carolina.

It is inappropriate to simply state that a claim is meritless without getting a statement from myself and all three witnesses. I feel that I am victim of crime or crimes, that I have been discriminated against due to my Autism Spectrum Disorder and OCD. I also have Type 1 brittle diabetes so my blood sugar could have been low causing my words to not sound right. Autism and Diabetes are both recognized under the Americans with Disabilities Act (“ADA”). I have been discriminated against by the FBI boss that Jerry spoke of. They have inappropriately considered my case meritless and here is why.

Even though the phone call recording was damaged by the white noise (*I make phone call recordings out of fear and distrust of Government because I have been wrongfully convicted, repeatedly punished over my Autism, and lies have been told about me, so yeah that is why I record phone calls I make under one-party consent*), I have stated under Declaration that I did argue with the FBI Agent (*assuming that the call recording had worked without realizing that it contained entirely white noise*) that “*if I had made a false statement in Court, I would go to prison*” [sic] yet Kristy L. Burton is allowed to make multiple false statements under Oath in federal court causing me to have mental breakdowns while under home detention and had increased my thoughts of suicide and forced me to go to group sex offender counseling when I am innocent and blocked me from being able to timely file my 2255 motion, all because of her and her criminal intent and behavior to bully me and my family.

I have been threatened with criminal perjury and obstruction of justice if I reverse my false guilty plea. In my case, I wasn't being given proper medical care while I was in the U.S. Marshals custody. They weren't giving me enough insulin and I was kicked in the nose with blood pouring out. The Jail guards have abused me in a few cases which I had written in my book published on Amazon and Barnes & Noble. I wasn't allowed to see all of my discovery until after my conviction. My own lawyer screwed up my whole case and refused to present a defense, yet I was threatened with technical perjury and obstruction of justice if I undo my guilty plea. Yet U.S. Probation Officer Kristy L. Burton had lied multiple times on the stand in federal court and her lies were in documentation filed with the Court concerning the “Petition for Warrant or Summons for Offender under Supervision”. She wasn't sitting in jail when she told all those lies in Court record. She didn't have ineffective counsel like I did which violates my Sixth Amendment right. She should be charged with perjury and I should not. What she has done was violate the Equal Protection of the Laws clause of the Fourteenth Amendment of the U.S. Constitution. What the FBI has done has done was violate the Equal Protection of the Laws clause of the Fourteenth Amendment of the U.S. Constitution.

If Kristy L. Burton cannot be charged with perjury and subornation of perjury which can be proven due to corruption in the Greensboro, NC FBI, then I will request that I not be charged with perjury for undoing my false guilty plea because it is unconstitutional because they will not charge Kristy L. Burton for making multiple false statements under Oath which is technical PERJURY.

What she has done is a crime, the Duty Agent of the FBI has accepted my initial complaint and had originally planned for me to come down and make a statement. Then his boss says that my complaint is meritless and throws the whole thing out while I am being threatened with perjury over my false guilty plea when I was given no due process and counsel so ineffective that I had no choice but to take that guilty plea. This is unconstitutional and the threats and intimidation by the Asst. United States Attorney Anand Prakash Ramaswamy is unprofessional, violates Rule 3.8 of the ethics of the American Bar Association established rules in the N.C. State Bar regarding Special Responsibilities for Prosecutors. It violates the law and the Constitution too. And the FBI does nothing about it.

I request intervention in making sure: (1) that the FBI boss and the Duty Agent not discriminate against me over my mental handicap/disability of Autism and OCD and my diabetes. (2) That the FBI boss not commit dereliction of duty and not ignore and refuse to investigate the crime or crimes committed by U.S. Probation officer Kristy L. Burton. That he not be allowed to commit high treason by refusing to discharge his duties of his respective office. That he not protect the criminal behavior of Kristy L. Burton while AUSA Ramaswamy is threatening to shut down my case and shut down the evidence by sealing everything and prevent me from going to to the media or anybody, all stemming from the pre-filing injunction motion and mass sealing gag order type of request. I am being bullied by Ramaswamy and the FBI's job is to go after those who violate federal laws and are caught violating federal laws. Kristy L. Burton had victimized me and my family by her perjury and has done a lot of damage to me and my family. Her perjury has prevented me from proving my actual innocence due to the 1 year statute of limitations governed under 2255 motions and is the direct cause of me facing potentially a pre-filing injunction and mass sealing order. Her crimes have victimized me and have pushed me further towards talking about suicide in my court filings with what she had criminally done to me and my family. She has hurt me. She should be in prison and pay restitution and one such penalty should be that I be allowed to prove my innocence and not face perjury over my false guilty plea under Rule 11 of Federal Rules of Criminal Procedure. The FBI needs to consider my complaint further and further investigate otherwise they are aiding, abetting, and giving comfort to felony criminal behavior.

I like to receive a written response after successfully receiving and processing this letter. I request a written response from the Congress. I am a victim of crime and deserve to be treated as such from the FBI office in Greensboro, NC. I ask that the Congress intervene with the FBI decision not to do anything about the perjury of USPO Burton.

Thank You & Sincerely,

Brian D. Hill
