Subject: Frauds upon theCourt

U.S. Solicitor General Noel Francisco,

I am Stanley Bolten.

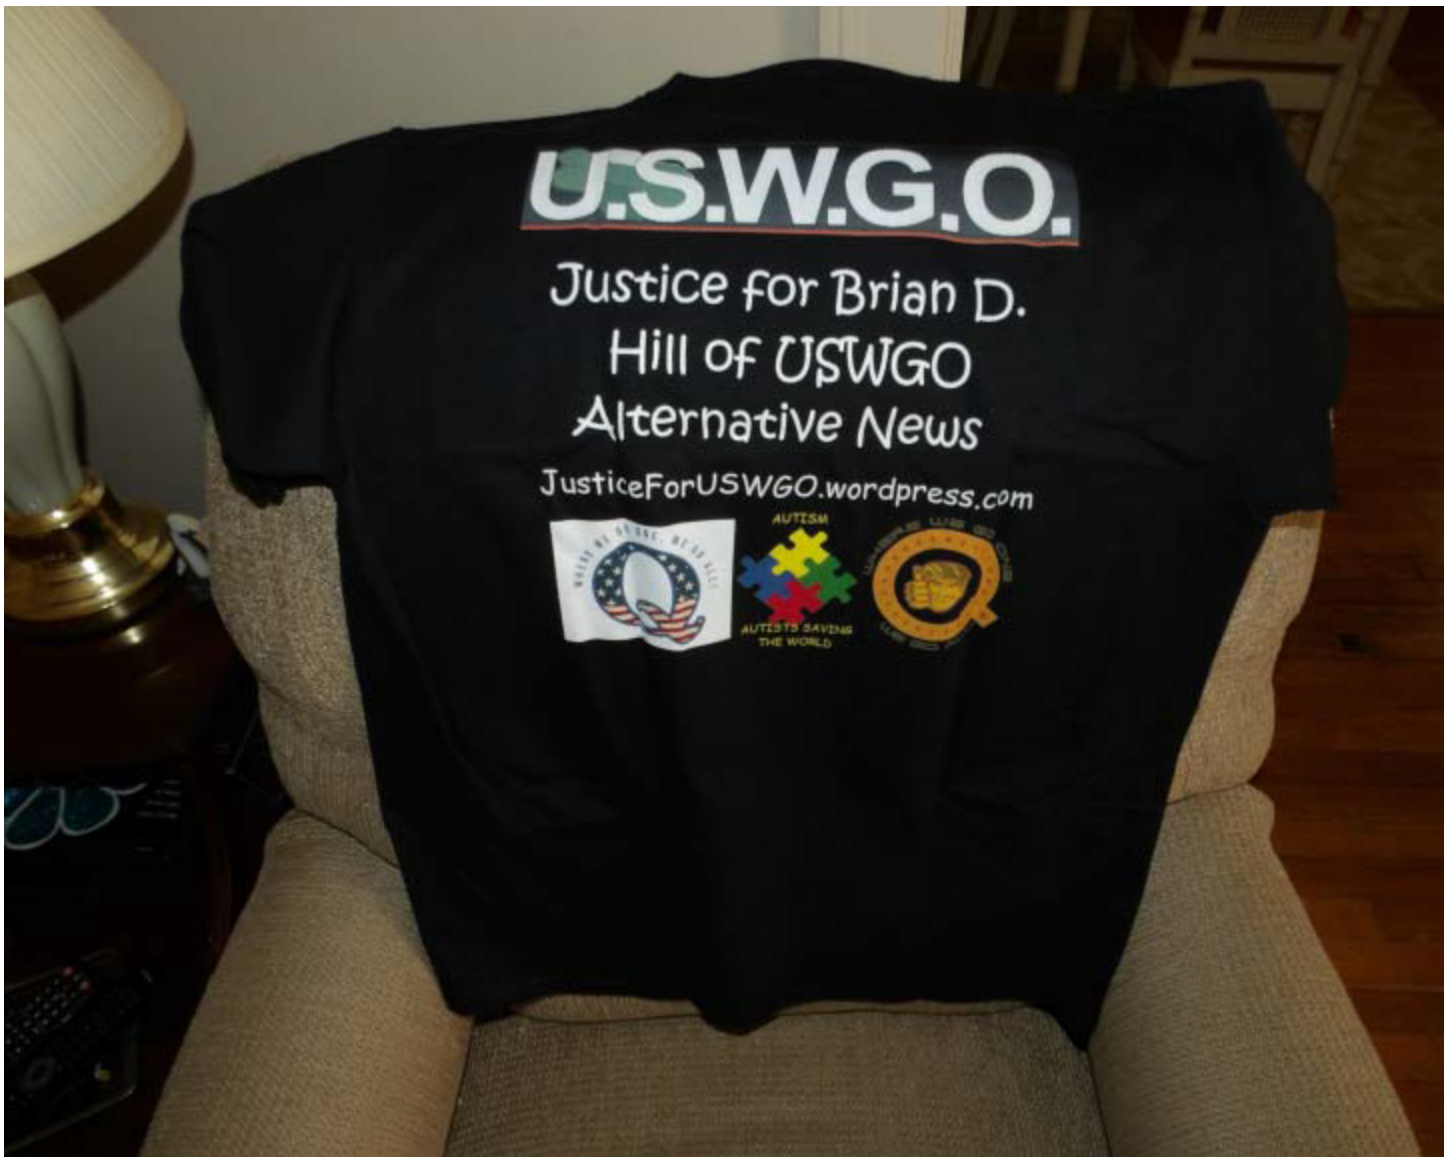

Note: http://www.supremecourt.gov/DocketPDF/19/19-8684/145753/20200616184819401_Waiver%20Letter%2019-8684.pdf

I am surprised that you would waive filing a response for the government.

I've read Brian's pleadings since the very beginning of his Federal criminal Case leading all the way up to the Writ of Mandamus and now the Supreme Court petition. As well as patriot [REDACTED] of Kansas who also petitioned before the U.S. Supreme Court before.

As you are aware that Brian had spent a lot of money for this petition for writ of certiorari from the letter to SCOTUS that his mother had sent Laurie Azgard and was posted on the blog, asking the Clerk to docket the petition online. Brian's SSI is severely limited, so for him to spend quite a lot of money on this petition shows that the decision was not made lightly. I mean he has a limited amount of money every month on a fixed income then spending over a hundred on the SCOTUS petition.

Brian, his friends, and his family are all hoping for justice for Brian Hill.

Brian and his family had all filed affidavits in the district court proving that United States probation officer Kristy L. Burton had committed perjury. Yet the assistant United States Attorney Anand Prakash Ramaswamy had continually allowed the perjury and encouraged the perjury and fraud at the US District Court.

The DOJ should have investigated that so many years ago. I believe that is why he had Qanon in his filings because he's so sick of the Injustice in the federal court and sick of such open corruption. Judicial and prosecutorial corruption.

Then the US attorney keeps lying in the court filings and when Brian Hill proves it, that the judge punishes Brian like he's in the wrong for exposing Ramaswamy's lies when he's never lied. Then the judge turns around and makes up stuff about Brian in his opinions. I have followed this case to know what bullshit is. Donald Trump said the Russian collusion delusion is "bullshit" and I believe it is the same way with Brian's entire criminal case. No disrespect Hon. Noel Francisco.

If you had read over Brian's case files and entire petition for writ of certiorari and if your staff has looked into his lower court filings than you know he has very well proven multiple fraud upon the court claims. His writ of certiorari does have merit and Brian is not playing games here. Nobody involved in his case is playing games here. We want justice here.

In response to three different motions with allegations against AUSA Ramaswamy that Brian had filed in reference to fraud upon the court, it is noted on [courtlister](#) that the u.s. attorney never filed a timely response (nor did they file

any response in the district court) to the motions for vacating fraudulent begotten judgments and asking for sanctions against the US attorney for the fraudulent begotten judgments.

In fact the judge will not even make a decision of those pending motions as of what is on the docket, that is on public docket. There's been so much gaping holes of abuse, fraud, corruption, and usurpations by people in the DOJ for all of these years. Donald Trump wanted his staff to drain the swamp and I think that you want to drain the swamp too, I hope.

My OPINION: There is no future for the American people with the SWAMP. The swamp needs to be undone. The swamp needs to be overthrown and imprisoned for their consistent acts and conspiracy of illegal sedition and treason. The Deep State swamp is not lawful government here, they are acting in excess of lawful jurisdiction, just like Judge Thomas David Schroeder. They all act in excess of lawful jurisdiction, and break the laws in front of us and commit fraud against the American people. Every day they have moved to undo our Constitution and send thugs like ANTIFA. President Trump was elected to put a stop to this kind of political maneuvering, corruption, and secret societies like JFK spoke of.

You can right the wrongs Noel Francisco. You can right the wrongs in the Department of Justice before the U.S. Supreme Court. I ask of you and beg of you to not let Brian's petition for writ of certiorari die before it even goes before a conference. And then Anand Prakash Ramaswamy needs to be punished for his crimes, and for his federal crimes at that. Brian is a victim of legal terrorism since 2012, not including Righthaven LLC.

Qanon had bragged about sealed indictments and about William Barr going after the Deep State. Will you go after the criminal Deep State Noel Francisco just like John Durham and he is a US attorneyhe might actually go after the criminal Deep State for their crimes and Corruption?

Brian was the target of the Deep State. They tried to poison Brian and his mother with carbon monoxide gas in late 2017 till January 2019. I hope the Deep State will stop targeting Brian Hill and his family. He had done nothing to warrant this war by the Deep State of the United States against him. He had done nothing to warrant being legally terrorized all of these years. All he did was run an alternative media political blog called USWGO alternative News at uswgo.com. That was his only crime and being defrauded by the corrupt U.S. Attorney office back in 2013.

If you know anything about how honorable President Donald John Trump is when he appointed you to your term of office, I ask of you to help drain the swamp too and to help those who are victim of corruption who ask the US Supreme Court for help like Brian David Hill.

You can still right the wrongs. This letter will be turned over to Laurie Azgard to publish to the justice blog. So consider this a public letter. I am sorry but the Corruption must end in your Department of Justice. Corruption has to end. God bless you.

Best Regards,
Stanley Bolten
