Rob Dew,

Sorry for texting you instead of Brian texting you. He had lost his cell phone last year but still had your number so he had me to text you instead. Brian had also filed a affidavit in the case of Roger Stone in his favor too for the sentencing. That filing was approved by the Judge.

I want to keep this as brief as possible since I understand that you all don't have the time to sift through too many pages but want to bring up the factual points for the case of Brian D. Hill of USWGO Alternative News, in regards to his actual innocence. As well as fraud upon the court by the asst. US Attorney Anand Prakash Ramaswamy.

I also saw on the Alex Jones show in 2019 some of the pages of the emails that Alex Jones showed live on air about somebody trying to frame Alex Jones too with yucky CP files. They appear to be tormal messages as onionmail and that other provider are reportedly both TOR message providers. Brian D. Hill, Luke Rudkowski, Stewart Rhodes, Dan Johnson, Ian Freeman all received tormal messages of either a set up attempt or threat or both. Brian got a copy of the threatening CP set up threat message from his mother who received a copy from Free Talk Live who was raided by the FBI, Ian Freeman was questioned by the FBI but was never charged because Ian Freeman also received a tor mail message threatening more CP frame up action. A copy oif that message was filed in Brian's 2255 case as newly discovered evidence. What happened to Alex Jones last year goes along with what happened to Brian in 2012-2013. One threatening message said to Brian in 2013 that Alex Jones would be next, and said beware.

As to his legal case, it is publicly on Courtlistener and it stores copies of all Court filings from PACER.GOV.

His appeal documents including the Writ of mandamus (19-2338) are on archive.org.

<https://archive.org/details/HillvUSA>

The brief points are as follows:

1. Assistant US attorney Anand Prakash Ramaswamy did not contest any of the motions for sanctions against this government lawyer for his fraud upon the Court.
2. Writ of Mandamus appeal was filed against Judge Thomas D. Schroeder for ignoring all motions of fraud upon the courts and for refusing to grant all of those motions for being uncontested. When a motion in a civil case is uncontested within 3 week response time, in the normal course of action that motion would be granted by the Court. The Court ignored all fraud upon the court motions and will not make a decision on any of them. Proof of judicial corruption. 2255 opens a

civil case and are under both the Federal Rules of Criminal and Civil Procedures. Uncontested motions should have been granted, including default judgment. Brian has demonstrated enough of innocence and the Government has f\*\*ked up as you have asked Brian in 2018 to prove to you.

Writ of Mandamus filed because Judge keeps ignoring the motions for fraud upon the court. Document #195 did ask the Judge to recuse himself and he refused but his attitude changed by getting worse and he ignored all motions for sanctions even though a Judge has a duty to dispose/resolve of all pending motions and wait for any and all pending appeals (incl. interlocutory) concerning that matter and case prior to dismissing an entire criminal/civil case and action.

Writ of mandamus was responded to by the Assistant US Attorney Anand Prakash Ramaswamy but made claims that were shown to be lies, so a reply brief was filed by Brian with help of his family pointing to his innocence and the frauds. There are currently 6 consecutive appeals going on his case according to PACER.GOV.

Yes, I am not joking, Brian has in his federal criminal/civil 2255 case and his regular criminal case has six ongoing consecutive federal appeals which is unheard of in the normal course of federal cases being appealed. Normally a Federal Judge respects that if at least one or two appeals are filed that the Judge will not make any further decisions on the matter or even the case until after the appeals are disposed of. Judge Thomas D. Schroeder ignored the appeals including the Writ of Mandamus where the very Judge is respondent in that case, before deciding to permanently dismiss the 2255 case, even ranted about Brian's motion to recuse. That Judge is partial and has illegally entered the actions that he had done and may not have had valid legal jurisdiction to even have dismissed it. Online post was written about what the Judge had done.

In that post, a photo of Jeffrey Epstein on the left and a photo of Brian D. Hill when he ran USWGO Alt. News was on the right of the photo asking if Brian with autism and is a virgin was more of a danger to

the community than serial pedophile Jeffrey Epstein. That was officially put in as his meme on Federal Court record. So Brian had meme'ed the Court.

So Rob Dew, you have the proof. Judicial misconduct and Prosecutorial abuse and frauds. Not contesting to the allegations of fraud. If you need any further proof, Brian's appeal brief will be docketed for the wrongful dismissal of his entire 2255 case. That will expose the corrupt Federal Judge and expose the US attorney, all of them with the facts and the cross references from the record. You can call Brian D. Hill at 276-██████████.

Brian also filed a Declaration in favor of Roger Stone in his federal case too.

Brian was the only one who filed an affidavit in favor of Roger Stone for his sentencing.
