Rob Dew and Kit Daniels of InfoWars,

You told Brian in 2018, "If you can prove that the Government fucked up in your case, I'll write an article on it". Well Brian had proven it but we understand that you don't have the time and resources sifting through hundreds of pages of document and trying to figure out how the Government [ruined an innocent alternative news reporter](#).

One ten minute video briefly shows that the Government did fuck up all the way in the prosecution of Brian's case. Not just that Rob Dew and Kit Daniels, the Government defrauded the Court to convict an innocent man with child pornography. Uncontested claims of fraud are proven Rob Dew, that is why an article must be written on this, here is why.

The proof is in the video to review. Proof that Brian D. Hill; USWGO Alt. News, is INNOCENT, being HELD HOSTAGE by Corrupt Federal Court - YouTube - <https://www.youtube.com/watch?v=GkvLiooKltY> - This video may be going viral as it has over 20,000 views already. There may be more as I write this.

Here are the facts. Local Rule 7.3 of the U.S. District Court says the Respondents must respond to a motion and brief within 21 days or 30 days if motion for summary judgment or maybe 14 days if a motion for discovery. If the motion is not responded to by an opposition brief, then it is an uncontested motion and "ordinarily will be granted without further notice". Brian said in multiple motions, written motions and briefs, that his child pornography case was based on a fraudulent prosecution, that is was downloading for 11 months after his computer was seized by law enforcement. Brian also had proven the Probation Violation was also prosecuted by fraud even though that charge was over having an autistic meltdown where nobody was

harmed, Brian's Autism Spectrum Disorder caused by the vaccines had caused that. The Probation Officer committed perjury in her testimony against Brian. Proven on the record.

All of that was outlined, in three Hazel Atlas Motions which is legal under the U.S. Supreme Court, all Courts have the inherit power to vacate any judgments procured by fraud. Known as Hazel Atlas Motions and another case outlined those inherit powers was Chambers v. NASCO, Inc..

Brian filed Documents #199, #206, and #222. The third one asked for Brian's criminal conviction to be annulled as it was obtained by fraud. Since that would be similar to a Summary Judgment Motion, the Government would have 30 days to respond. the Government never responded even over a year to those motions. So the Government did not object to the claims made in those motions. Brian's contentions were undisputed, uncontested. Therefore Brian is FACTUALLY INNOCENT of child porn as a matter of law. Watch the video and you will understand why an article needs to be written about this.

We've had our disagreements and I apologize to you Rob Dew over it. It's not fair to Brian for me to be upset with you. Brian has proven his innocence, the Government did not file any objections when they had the right to. After 21 days or 30 days response deadline under the rules, the Government waives their right to respond and the facts are the facts. I've proven the Government fucked up in Brian's case. Please keep your end of the bargain.

Owen Shroyer was right when he said he can't cover every criminal case of a possibly innocent man as it would overwhelm Infowars and they couldn't function as there is so much Police State persecution that they can't cover it all. I understand all of that.

Please consider this popular 24K YouTube video and write it into a short article. Even posting the video on Banned.video would bring up the facts and make Brian the happiest alternative news man ever.

Alex Jones has been ranting a lot lately about January 6 protesters being tortured into giving false confessions or false guilty pleas to turn against Donald Trump. Being given bad Public Defenders who are getting them to not win their jury trials. The same happened to Brian and he has the proof that he was tortured in the Jails. The video with the brief evidence and proof photos and proof documents are in that video and it's description. It's all there and can easily be vetted.

Please consider keeping your word to Brian. **He can still text message you but he has a new phone number Rob Dew. His number is [REDACTED]**. If Brian can briefly prove that the Government fucked up in his case, that you would write an article. Please keep your word Rob Dew. You owe it to him, he dug out the FOIA Documents, he received those FOIA Documents which proved that the DHS Fusion Centers were spying on Infowars.

Brian did that for you at no cost to you. Brian did all of that for you and Alex Jones. He admired Alex Jones back then and thought the world of him back then. You can still show the YouTube videos and they are also at Brighteon in case of censorship. You have the videos, you have the brief evidence explainable in 10 minutes in those two videos. Please I beg of you to present the YouTube videos herein in your article about Brian proving he was set up. You can be a hero to me and Brian and his family.

I am willing to apologize to you publicly on the blog if necessary. Brian doesn't need to be ignored anymore,

he has proven his innocence, it is factually proven. Through Hazel Atlas Motions and Medical Documentation.

God bless you,
Stanley Bolten
