To Officer Robert Jones,

You said in Federal Court under oath that the hospital did lab work and other stuff when you said under oath I was "medically and psychologically cleared". You said that under penalty of perjury.

Let me fax to you documents which prove that is not true. Dr. Brant Hinchman gave you the wrong impression when he released me.

My medical record said DELETED FROM THE CHART. They never did the lab work or they did the lab work and was covered up aka DELETED FROM THE CHART. See for yourself from my medical records.

I am also faxing to your attention, Billing records. The billing records prove that I was given an electrolyte in the hospital. So that meant I may have been dehydrated.

If I was medically cleared then why were lab tests ordered then deleted from the chart saying correction deleted from the chart???

If I was medically cleared then why did you ignore witness Pete Compton who found out that my home was subject to carbon monoxide gas before my arrest because of metal tin placed on the chimney???
