There are names in that letter in that P.O. box. Brian has a list of people he suspected not only framed him with his federal charge back in 2013, but Brian suspects the judges involved in his case are being blackmailed. If Brian ever gets proof of this he can finally rightfully be acquitted and be out of this hamster wheel where he cannot peacefully get anywhere. They are holding him hostage to keep him off the internet for the rest of his life so that he can never fight the New World Order ever again. He cannot even get a girlfriend, he can't have a social life. It has all been taken from him, he talked about suicide for years which is why he keeps filing motions, Supreme Court petitions, denied over and over again. Brian keeps fighting so he doesn't end his own life. Brian is being held hostage by the DOJ.

They claimed an unknown series was on his computer and he had no victims. The whole thing was a set up if you read his PreSentence Investigation report. The blood glucose logs from different jails under U.S. Marshals contract. They tortured him to plead guilty, broke his nose, ripped his clothes off and naked in a cell with feces, and that was before he took the guilty plea. His attorney refused to present any defense. They treated him maybe just as bad as J6, in 2014. Brian was tortured into guilty plea. Brian can clear his name if he can prove new evidence of any way to legally acquit him. If they can find who framed Brian, then he can be free, if the judges were blackmailed then that would explain why they stonewalled him for years and would explain why Brian can't get anywhere while being shunned by the alternative media. They shun him like he is guilty, how can they just throw his due process away like it doesn't exist. Brian Hill needs help in getting his life back. Brian has no way of effectively getting his life back. He is in his 30s. They took his freedom away at age 24.

If William Lindsey Osteen Junior and Thomas David Schroeder (middle district of North Carolina) are being blackmailed with visiting the certain CP websites and chat rooms, if they were being blackmailed with this then this explains why motions were denied, due process was squashed, the entire case of U.S. v. Brian David Hill is unconstitutional, null and void. Brian asked for an independent forensic expert including a former FBI agent Kevin Wetzal, he agreed to examine Brian's seized computer but judges just deny every motion. Brian had somebody agreed to examine the interrogation audio, the Judge would not allow it. Brian was deprived of every facet of proving his innocence in his case. That is why he wants to send information to Pete Santilli and to The Big Mig. Brian fought so hard for years and years, kept failing, motions denied, one after another, cannot get anywhere.

Sorry about texting you a lot of info but I want to make sure you have all the information. There has been a lot of wrong things done to this autistic man who decided to play the big boys game of politics, and dirty politics bit him in the ass.

B

Jan 15, 4:50 AM

People with autism are brain damaged, he doesn't deserve the type of criminal conviction which he has. He has never murdered, never raped, never charged with assault. He messed with the big guys without understanding what he was dealing with. Alex Jones turned his back on him, so has Darrin McBreen and Adan Salazar. They all thought Brian was guilty just because he said he was raided. How is he guilty because of that alone? The good guys get police raided when they go after the corrupt actors of the NWO. Brian tried to explain to them he was set up, they didn't want to hear it, they just rather thought Brian was guilty, made it a whole lot easier for them. Brian is not guilty, and he can prove it. He needs Q because Q is all he has left.

One more thing. Brian plans on filing a petition for rehearing in the Supreme Court. He will bring up the transcript of Pete saying that Evan Neumann had corroborated the claims made by Attorney Lin Wood. Brian will also show printed proof that many Americans are feeling that Roberts is compromised. Brian will bring up the intervening issue that Roberts did not comply with the disqualification statute of 28 usc sec. 455 requiring disqualification of a justice for being involved in the blackmail scheme and he refused to recuse himself, then turned around and deny Certiorari in Brian's case which benefited him as well as benefited the people who allegedly blackmailed him. Brian is going to bring up that he did not comply with the disqualification requirement under federal law and caused the American people including Pete Santilli to feel that Roberts is compromised by not recusing himself cause deterioration in confidence and integrity of the federal judicial system. Brian is planning on arguing that by denying Certiorari, it has led the American people distrusting the judicial system and will ultimately cause distrust of law enforcement since government can break the law without consequences, citing Olmstead v. United States Supreme Court ruling about government being allowed to commit crimes will lead to disrespect for the law and lead every man to be a law unto himself. So pretty much this is summary of what Brian plans on arguing with short exhibits, or links provided by his family. If he should not file this or it should be reviewed by Pete or anybody who has taken interest in his Supreme Court case, Brian is willing to not file it if advised not to, or let somebody review over it. He only has one more chance to try to get a special master to investigate federal judges being blackmailed.

Supreme Court is very scared of what Brian filed in addition to his petition for rehearing, talking about Evan Neumann in his filing <https://justiceforuswgo.wordpress.com/2023/02/04/petition-for-rehearing-docketed-in-blackmail-scheme-case-in-u-s-supreme-court-case-no-22-6123-motion-for-review-and-disqualification-filed-but-not-publicly-docketed-for-the-general-public-w/>
