Submitter Notes: Emergency Letter. Audio recordings need to be archived safely for the judges to have access to in case of potential link rot or corrupt police raid suppression operation or website shut down operation by the black hats to try to make evidence disappear. This evidence should not disappear after it proves Justin Hill, counsel for Appellees lied to the Court of Appeals of Virginia. This evidence may be disappeared, illegally suppressed, or covered up in the future, Brian fears this. So it is pertinent to protect the evidence so that the judges can listen to the legally recorded audio files under one party consent consented by Brian D. Hill, the Appellant. It shows the corruption, it proves it. Corruption in the Martinsville system. They are trying to set Brian up to lose his appeals.
