Brian and Roberta Hill,

On April 25, 2024, my supervisor and I had a discussion with Brian Hill about modifying his conditions, specifically addressing his gaming systems, desktop computer, and smart phones. We have been patiently waiting for the Administrative Office (AO) to release new cyber crime management conditions. The new conditions are now available for districts around the United States to implement. Attached is a modification order for Brian Hill's review. If he is agreeable to the conditions, there is a signature block for Brian Hill and Roberta Hill, please sign accordingly. If Brian is not agreeable to these conditions, please advise.

Thank you,
